

Xybix offers task lighting to enhance your work station and add light to dim or dark areas

Low profile and easily adjusted for optimum comfort and lighting conditions.

- Paired with the Xybix MyClimate control system, task lighting can be dimmed, brightened and turned “on/off” with the hand controller.
- Lighting (comes in a pair) attaches to front keyboard surface for a secure mount.
- Energy saving motion detector in MyClimate controller, turns on/off lighting if no presence is detected for more than 15 minutes.
- LED light cool to touch.
- Stylish finish for an updated and modern look. Easy pivot flex body shines anywhere.

Other Lighting Options

- The Z-Bar LED Desk Lamp is a compact space-saving design with maximum adjustability.
- Providing over 15,000 hours of illumination, this slim LED lamp provides the equivalent of 30-40 watt incandescent bulb.
- With four steps of dimming, the Z-Bar is a great keyboard lighting option.

- Reduces eye strain in dark viewing conditions.
- Soft backlighting glow controlled with use of Xybix MyClimate hand control. Easily dim and brighten for a customized feel.
- Enhances contract ratio and picture quality.
