Artificial Intelligence (AI): an engineered or machine-based system that varies in its level of autonomy and that can, for explicit or implicit objectives, infer from the input it receives how to generate outputs that can influence physical or virtual environments (Gov Code §§ 11549.64 & 11546.45.5).

GenAI Training Data: any content, information, or data that is used to train, tune, test, or validate a GenAI, including text, images, video, audio, code, or similar types of input.

Generated Data: any output, results, content, or other data that is produced by GenAI, including but not limited to text, images, video, audio, code, or similar types of output.

Hallucination: Generated Data that is nonsensical, false, or misleading, and is not based on real or existing data, but is instead produced by bias or the GenAI's extrapolation or creative interpretation of its Gen AI Training Data.

Materially Impacts: shall have the same meaning set forth in State Administrative Manual (SAM) 4986.2.

Prompt: any written, spoken, or rendered information provided as a query, command, or other form of input, to any GenAI in connection with this Contract. Failure to Disclose or Discontinue GenAI Use: The State, at its sole discretion, may consider Contractor’s failure to disclose or discontinue the provision or use of GenAI as described above, to constitute a material breach of Contract when such failure results in a material impact to functionality of the System, risk to the State, or Contract performance. The State is entitled to seek any and all remedies available to it under law as a result of such breach, including but not limited to termination of the contract, for default pursuant to Section 16.3 (Termination for Default) of the IT General Provisions Non-Cloud (rev. 11/12/2024).
