Dimensions, Shape & Durability

- Desktop sized to hold a keyboard, mouse, phone, recording device, reference books, paper files and all other necessities
- Curved desk front so you can position yourself closer to the desk and create a more comfortable reach zone
- Beveled desk edge to ensure neutral wrist alignment, which helps prevent carpal tunnel and tendonitis
- Engineered for 24/7/365, raising and lowering the desk with heavy equipment throughout the day, according to third-party testing and [BIFMA certification](#)

Custom Lighting Controls

- Surface-mounted task lights over the monitor and/or keyboard to find items in the dim room
- Adjustable direction and intensity of task lights to suit user needs and preferences
- Bias lighting to provide the ambient lighting that improves reading conditions without causing eyestrain
- Colored lights on acrylic panels that [impact circadian rhythms](#) to improve health, morale and productivity
- Ability to save all light, color and intensity settings in scenes to activate with one touch

Custom Climate Controls

- Custom heating/cooling controls to [reduce the discomfort and time](#) involved in adjusting temperature
- Personal heater to keep hands warm and [reduce the chance of errors](#)
- Personal cooling fan to prevent the stress of being too hot
- Save heating and cooling settings in scenes to quickly change the temperature at shift change and throughout the day

Customization Convenience

- The [AXYS system](#) allows you to adjust the lighting, climate, and surface heights of your desk via your computer, tablet, or phone.
- The AXYS system allows you to save your favorite combinations settings for quick and easy recall.

Healthy Desktop

- 3D laminate desktop that is durable, attractive and easy-to-clean
- Seamless desk edge prevents scratches, snags and unsanitary crumbs
- [GREENGUARD Gold](#) certification to promote healthy air
- Built-in cupholder option to keep caffeine and smoothies handy and spills at bay

Space Planning

- [Free layout and design services](#) from a degreed and experienced interior designer
- Space planned to meet ADA, electrical and fire codes while accommodating all the imaging desks, filing cabinets, printers, etc., needed
- Custom layout to enhance workflow and collaboration while providing privacy and noise reduction
- Assistance with color, carpet, paint and finish selections

Follow Through

- High-quality, made-in-the-USA construction
- Strong warranty that covers parts and labor
- Experienced installation team capable of everything from new construction to live cutover
- Dedicated customer service team that understands the urgent needs in imaging and healthcare
