Xybix Systems, Inc.
8207 SouthPark Circle
Littleton, CO 80120

To whom it may concern,

Larimer Emergency Telephone Authority (LETA) would like to extend a sincere thank you to the entire Xybix team for their help in designing and installing furniture in our 14-position backup dispatch center. The backup dispatch center is now complete and turned out exactly the way we envisioned it because of hard work of the Xybix team. Megan Yartz was extremely professional and thorough, seeing the project all the way through to completion. Xybix was also the only vendor that allowed us to work directly with their designer in CAD to come up with a layout that met all our needs. Xybix designer, Emily Houston, was extremely patient with us during all our design changes and delivered on every request. This part of the project made Xybix stand out from all other vendors.

The Xybix installation team was also very professional and finished installation on time. They brought forth concerns that came up during installation and worked with our team on swift resolutions. We are very impressed with the quality product that Xybix offers. All dispatchers in our county are extremely impressed with the final product and cannot wait to work out of the backup dispatch center.

LETA would be extremely confident in recommending Xybix to other public safety agencies. We look forward to our continued relationship with Xybix for many years to come.

Sincerely,

A handwritten signature in black ink that reads "Valarie Turner". The signature is written in a cursive, flowing style.

Valarie Turner
