I cannot begin to express the wonderful experience I have had working with you and your team at Xybix. From the first time of meeting you, to the completion of our project, has been nothing but professional!

The City of Dothan Communications Center and the Houston County Sheriff's Office Communication Center are completely moved in to our new facility and fully operational. The design of Xybix furniture meets every need they have or could foresee having. The staff here absolutely love it and continue to brag on the functionality and the features.

Thank you, to you **(Xybix Team)** and Kelley Smith for making this process of purchasing new furniture so easy for me. The beginning choices to design and on to installation, I could not have asked for any better group of people to work with!

You guys ROCK!

I will continue to promote Xybix product and recommend to my peers and visitors of the City of Dothan/Houston County Emergency Operations Center.

Thank you again!

Holly A. Britain
E 9-1-1 Director
